A Sample Paper: Covid-19

Your Name

Date

Most people are well aware of the recent outbreak of the deadly virus known as Covid-19 that has created a health risk globally. The coronavirus has had a huge impact on the way people have generally perceived this world. The virus was termed a pandemic due to its ability to spread through the physical interactions of humans. The incubation period of the virus is 14 days before an infected person starts showing some symptoms. The most common symptoms of the virus are dry cough, difficulty in breathing, fever, body pain,

flu, and tiredness<sup>1</sup>. The entire world is being affected due to the effects of coronavirus. It has not only impacted physical health but psychological health, the global market, economy, tourism, our daily lives, and in fact the way of living has been changed due to the outbreak of Covid-19.

## **Discussion**

The occurrence of the virus has changed lifestyles drastically. It is advised to exercise social distancing to keep each other safe. There are no specific medications or vaccines prepared yet for this virus but experimental drugs can be used to cure the [Essay Writer](#). Humans who are known as social animals seem to be caged in their homes and are restricted to make human interaction.

This virus is not only affecting the lifestyles of people but also making people suffer emotionally and financially. A global recession is observed due to the lockdown all the businesses are closed and this is destroying the economy globally<sup>2</sup>. People have to bear the huge financial loss in several forms such as many people lost their jobs, their businesses are in loss and the inflation rate is increasing.

The self-isolation negatively impacted on the mental health of people. As people cannot meet their loved ones; they cannot go out to dine together like before. They have to wear masks and gloves to avoid germs. The Coronavirus not only affected the physical health of people in fact damaged their mental health as well. A huge number of people went into depression due to the uncertain situation. Staying at home and not being able to meet people is not an easy task for humans because they cannot survive without interaction.

## **Conclusion**

The covid-19 is the most deadly virus because of its contagiousness. It can transfer from human to human. So it is advised to practice self-isolation to keep yourself and your loved ones safe from this pandemic<sup>3</sup>. We should follow the precautionary measures to avoid getting infected. The damage it has caused to the world is irreversible. Although it has destroyed the economy globally, prevention is the only option available at the [Write my essay](#). Thus, the world economy is unsurprisingly described as being on the verge of chaos.
